NEW SETTLERS IN LUNA COUNTY

Ranchers Near Deming Making Permanent Improvements—News Notes.

Deming, N. M., April 7.—According to the list furnished tax collector Cook by the Las Cruces land office, there have been 57 quarter sections of land passed to patent in Luna county since the time when last year's assessments were made. Most of this land has been homesteaded, although a few quarters have been patented under the desert act.

It is noticeable that the farmers who are taking up land in the Mimbres valley are especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

ley at present are coming to stay. The improvements they are making are of a permanent nature. Within the last six months there have been 32 neat farm cottages put up within a radius of five miles of Deming, costing from \$1500 to \$5000 each. Substantial barns and pumping plants, imported farm horses, extensive clearings, rabbit proof fencing, all tend to give the country an appearance of thrift and prosperity.

Shull Bros. have received a shipment of fine seed potatoes from Wisconsin. They have planted about 25 acres of early potatoes. There will be about 60 acres in all potatoes on this ranch this year.

The news that secretary Ballinger has overruled the decision of Mr. Bennett to the effect that all of a desert claim must be in cultivation before patent issues, and asserting that under the law one-ninth of the claim is sufficient, is received with considerable interest and satisfaction by the desert land claimants in this vicinity.

H. Lesdos and E. Solignac are increasing their alfalfa acreage this year. They have at present one of the best alfalfa farms in the valley.

The merchants of Bisbee have formed an association for mutual protection. The purpose of the association is to have ratings of individuals who desire credit at stores or market. The association will later on maintain branch offices in Globe, Nacozari, Cananea and other cities.

A storm of protest has been caused by the fact that the male citizens of Bisbee, between the age of 21 and 50 years, have to pay a double road tax, amounting to \$4. The city council has no yet considered the proposition.

A shortage of enumerators, to count the people of Bisbee, is being experienced, for the fact that several candidates have left the position, believing the commission of 3 cents per name inadequate. Superintendent Towle, who is in charge of the census work in the territory, is expected here to make satisfactory arrangements so that the work will proceed.

WOMAN'S POWER OVER MAN

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman.

Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.
